Experience

Frontend Developer – 4Dee Technologies

Jan 2023 – Present

- Designed and developed responsive web interfaces using React, Tailwind CSS, and Bootstrap, ensuring cross-browser compatibility and mobile-first performance.
- Led the UI revamp of the company's flagship SaaS dashboard, improving user engagement by 40% through better layout hierarchy and accessibility enhancements.
- Integrated RESTful APIs with dynamic components, enabling real-time data visualization and seamless user interactions.
- Collaborated closely with backend developers and product managers in Agile sprints to deliver features on time and within scope.

Web Designer – Freelance

2021 – 2022

- Designed clean, modern UI/UX layouts for small business and portfolio websites, tailored to client branding and user goals.
- Delivered pixel-perfect, responsive designs using Figma, Tailwind CSS, and Bootstrap, ensuring consistency across devices.
- Developed print-ready resume templates and landing pages optimized for PDF export and online presentation.
- Collaborated with clients to iterate on design feedback, improving satisfaction and conversion rates.
- Hand-coded HTML/CSS components with accessibility and performance in mind.
